

Early Help Assessment

Why do an Early Help Assessment?

A professional or you yourself have told us about an area of your life you might like some help with. So that we can make sure we get you the right support from the right place, we would like to talk to you more about what's important to you and your family. This will help us to work together with you to get things working well again.

Conversation Tool – A guide to use

This is an observational prompt for the parent/carer and practitioner to use when completing the Child/Family Assessment. Practitioners can use these to support their knowledge in the assessment areas. The list of prompts isn't prescriptive or exhaustive. In discussion with the child/parent/carer ask them to consider on a scale of 1 – 10 where they feel they currently are. The key displaying the numbers is shown below and overleaf with Smiley Face prompts.
